

AUTHOR INDEX

Pisum Newsletter Volumes 1-11

We have attempted to help the users of this index by including the names of second, third, or more authors. But if the name listed is not the principal author, then the name is followed, in ( ), by the actual sequence of authors on the article. For example:

Aravindan, K. V. (Sharma, B. , H. C. Bansal and K. V. Aravindan).

Radiosensitivity of certain pea lines. PNL 2:33. 1970.

Thus, Aravindan is the third author of the above article.

\*\*\*\*\*

Aitken, Y. Maturity type/environment interactions in Pisum sativum.

PNL 3:6-7. 1971.

Ali-khan, S. T. 'Tara' field peas. PNL 11:38. 1979.

Almgard, G. Cultivar distinction by means of isoenzyme technique in Pi sum.

PNL 2:9. 1970.

Almgard, G. Variation in esterases, leucine aminopeptidases, and peroxidases of shoots and roots of Pisum. PNL 3:7. 1971.

Almgard, G. A deviating isoenzyme pattern: decisive criterion for the distinction and release of a new Pisum cultivar. PNL 3:8. 1971.1

Almgard, G. and K. Ohlund. Inheritance and location of a biochemical character in Pisum. PNL 2:9. 1970.

Aravindan, K. V. (Sharma, B., H. C. Bansal and K. V. Aravindan). Radiosensitivity of certain pea lines. PNL 2:33. 1970.

Aravindan, K. V. (Sharma, B. and K. V. Aravindan). Inductions of sativoid mutation in Pisum abyssinicum. PNL 3:49. 1971.

Aravindan, K. V. (Sharma, B. and K. V. Aravindan). "Crumpled petal", a new mutation in Pisum sativum causing mechanical sterility. PNL 3:50-51. 1971.

Aravindan, K. V. (Sharma, B. and K. V. Aravindan). Inheritance of the tac gene in Pisum sativum. PNL 4:51. 1972.

Aravindan, K. V. (Sharma, B., K. V. Aravindan, S. K. Tikoo, and K. Kant). Supplementary evidence about the inheritance of the tac gene in Pisum sativum. PNL 4:52. 1972.

Arthur, A. E. (Snoad, B. and A. E. Arthur). Genotype x environment interaction in peas - a preliminary report. PNL 4:47-48. 1973.

- Auld, R. (Slinkard, A. E., G. A. Murray, and R. Auld). The Austrian field pea industry in Idaho. PNL 10:79. 1978.
- Bandel, G. (Gottschalk, W. and G. Bandel). Early flowering fasciated and non-fasciated recombinants in Pisum. PNL 9:6-7. 1977.
- Bansal, H. C. (Sharma, B., H. C. Bansal, and K. V. Aravindan). Radio-sensitivity of certain pea lines. PNL 2:33. 1970.
- Baquar, S. R. Bimittosis in Pisum sativum L. induced by 6-hexachloro-cyclohexane (HCCH). PNL 2:10. 1970.
