

PREFACE

The Pisum Genetics Association (PGA) is a non-profit, unincorporated organization established to facilitate the exchange of information and to ensure the preservation of valuable genetic stocks. The number of PGA members now stands at 190.

Membership in the PGA is open to all interested persons. Dues are \$15.00 for two years (U.S. currency) and are used to help defray the costs of publishing the Pisum Newsletter (PNL). Members are encouraged to pay dues for two or more years to simplify bookkeeping. Please make prime banker's checks or international money orders payable to PISUM GENETICS ASSOCIATION and send to G. A. Marx, Department of Horticultural Sciences, New York State Agricultural Experiment Station, Geneva, NY 14456 USA. The PNL will be sent upon receipt of dues.

To facilitate rapid communication with the Editor, please note the availability of the following Telex and FAX numbers: Telex-6717017; FAX-1-315-787-2397.

Regrettably, extenuating circumstances prevented us from offering the eagerly awaited updated list of genes with descriptions in this volume of the PNL. Our hope is that the list will be ready for inclusion in PNL Vol. 21.

We gratefully acknowledge the continuing financial support (\$600) of the National Pea Improvement Association and the extraordinary gift (\$1,000) from the Del Monte Corporation. These donations have meant the difference between survival and insolvency.

Although we don't yet have an updated gene list, we proudly offer a five-year cumulative index (1983-1987). Once again Ms. Charlotte Pratt has given of her time and expertise so that we might enjoy the use of this valuable aid. This is a time-consuming task and one that requires experience, skill, and good judgment. We are most grateful.

Additional thanks are due to others who have made this issue of the PNL possible. As usual, a vital and principal contributor to the overall endeavor is Mrs. Frances Van Kirk, a longtime manager of our affairs. She typed (and retyped) and laid out the entire copy. Keyboarding of the Index was a part of this preparation. She also continued to handle all financial and clerical matters. We also wish to thank our loyal and competent crew in our Publications Department for their services. Finally, we extend our thanks to our reviewers for their helpful contribution.
